

# ORWAK 5070

This multiple-chamber-baler provides sorting and compaction of different types of materials in one machine! Top loading is simple and convenient and you can order additional chambers when needed.

---

## **MORE PRODUCTIVE USE OF TIME**

Less time spent on waste handling, more time devoted to your core activities.

---

## **VOLUME REDUCTION**

More compaction = less waste volume to transport for recycling or disposal. Fewer transports required results in lower transportation costs and reduced CO<sub>2</sub> emissions. Furthermore, one bag instead of ten saves you valuable space on the premises.

---

## **MORE SPACE**

Our baler rapidly minimizes the space the waste takes up, keeping aisles and passageways free and tidy.

# ORWAK 5070

As easy to maintain as it is to operate

## EFFECTIVE COMPACTION

The long piston stroke gives highly compacted bales!

## ORWAK 5070 IS OPTIMIZED FOR:

### PAPER

- + Cardboard
- + Shredded
- + Paper sacks

### PLASTIC FOIL

- + Shrink film
- + Plastic bags

### OTHER METALS

- + Steel straps

### OTHER PLASTICS

- + Plastic straps

## MULTIPLE-CHAMBER-SOLUTION

Orwak 5070 is a multiple-chamber-solution. It forms a mini recycling point for sorting of different types of material.

## TAKES LITTLE SPACE

The compact design and small footprint gives efficient compaction on little space.

## EFFICIENCY

While the baler compacts the material in one chamber, the other one is open and ready to be fed with more material!

## EXTENDABLE SYSTEM

Add an additional chamber to extend your sorting and compaction station!

## BALE TROLLEY INCLUDED

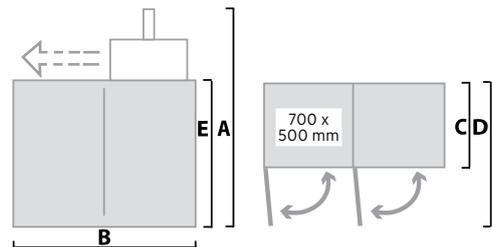

Orwak 5070 is always delivered with a bale trolley for easy baling and internal transportation of the the bale.

## DIMENSIONS AND SPECIFICATIONS

Dimensions				
A	B	C	D	E
2160 mm	1740 mm	735 (880*) mm	1430 mm	1205 mm

\*Including strap holders

WEIGHT (MACHINE) TOTAL: 522 KG  
 ONLY CHAMBER: 365 KG  
 ONLY PRESS UNIT: 157 KG

Technical specifications
